Hon. Mr. Lemieux Shows Inconsistency of Nationalist Minister.

BORDEN AND MONK ARE FAR APART

Did Not Appear Together Before Election on Quebec Platform.

OTTAWA, Nov. 23.—An unusual experience fell to the lot of the members of the new parliament this evening. Owing to trouble at the power house of Ottawa Electric Light and Power Company, the lights went out shortly before seven o'clock, causing much confusion throughout the building. There was a rush for candles and by aid of these, the members then in the building groped their way through the corridors.

The debate on the address which was recently confined to the afternoon sitting was, however, proceeded by P. D. Monk, Hon. Rodolphe Lemieux, and A. Mondou, the member for Yamack, who was speaking at six o'clock. Mr. Monk, who was not making any explanation as to the matter in which he became a member, of the cabinet, declared that he was not on the best of terms with another member. He said he believed that no permanent naval policy should be carefully considered and submitted to the people before being presented. He believed that Mr. Jordan should give the country a satisfactory solution of the naval question.

Hon. Rodolphe Lemieux supporting amendment of the leader of the opposition said that it was quite justified on account of the objection of the Nationalists in the cabinet. He quoted from the speech and said that he thought that Mr. Jordan and Mr. Monk were far apart before the election and declared that should give on what means they had managed to come together.

When the House met, Mr. Clarke of Leeds drew the attention of the government to the possibility in China having been placed on account of the disturbances in that country. He said he had been asked by friends and relatives of the minister to draw the matter to the attention of the government.

Hon. Borden said that he was obliged to Mr. Clarke for having brought the matter to his attention. The government would consider the situation at once and if anything should be done to relieve the situation in China, it would be done at once.

GREY TO RETIRE

Criticizes Foreign Minister's Handling of Anglo-German Situation.

London, Nov. 23.—The disclosure regarding the Anglo-German conversation with respect to Mexico and Central America, which was made by the statesmen that these two countries were on the verge of war, has given the radicals another opening and they are now, it is understood, pressing for the retirement of Mr. Grey.

BRITISH COLUMBIA TO ANNEX YUKON

This is Proposed of Phoenix Paper Which Claims That Mining Laws of That Province Are the Superior to Those of Dominion.

Vancouver, Nov. 23.—An "intelligent" proposal is advanced by the Phoenix Paper in the form of a resolution for consideration at the fifth annual convention of the British Columbia Quebequer Association which opens in New Westminster tomorrow. This resolution in effect says that it is now opportune to urge upon the Canadian government the desirability of annexing to British Columbia the whole Yukon territory.

Supporting this resolution the Phoenix says: "A sufficient excuse for this resolution is undoubted the excellency of the British Columbia mining laws and their administration, compared with the scandalous methods that have brought the blum of shame to thousands of Canadians. It may be further urged that the development of the Yukon will proceed by leaps and bounds once it is annexed to British Columbia, more especially at the completion of the Panama canal it is certain to double the riches and importance of British Columbia within a few years."

RED DEER.

Bulletin News Service.

The plans of the sisters of St. Joseph's convent and the Rev. Father Yukon for the extension of the educational work of the Roman Catholic Church in Red Deer are much greater than many of the citizens imagine. Mr. Turnbull, of the A. C. Railway draughting staff, has taken out plans for the enlargement of the present convent and school building to about four times its present size.

The present building will form the centre, but will be raised another storey and will be surrounded by a lock-out gallery and dormitory tower, from which will be available a grand view of the town and adjacent country for miles. On the east and west side of this building will be added a solid brick wing, each 18x50, three stories high and basement and the building throughout will be furnished with the most up-to-date improvements in the way of heated fire doors, tile escapes, etc.

A part of the new building will be equipped as a small private hospital, while a large assembly room will be arranged in connection with the school section. Work will be started on the improvements in the spring and will be rushed through.

Mr. J. H. Menzies, manager of the Northern Crown Bank and managing director of the Great West Lumber Company here for the past five years, is leaving this week for Winnipeg from where he will probably go to Ontario to accept an important position with the bank.

Mr. Menzies has been a valuable citizen during his residence here, having been a member of the town council and board of trade council, and has also been greatly interested in sport of all kinds. His presence will be greatly missed by all who know him. His place as manager of the Northern Bank will be taken by Mr. J. M. Campbell, of High River.

Mr. Lyons, who has been the assistant manager of the Northern Bank, has been transferred to Cranford, Manitoba.

The census returns show Red Deer town to have a population of 2,118. This does not include North Red Deer, with 300, nor any of the many sub-divisions around the town, which though they do not come inside the town limits, virtually belong to Red Deer. There have a population of nearly five hundred, so that Red Deer population is actually about 2,600, which places it in the sixth position in the province.

Messrs. Hooper, Hughes & Co., contractors for the large C. & N. Railway line running along Red Deer, are busy this week moving their steam shovel and outfit from the C.P.R. Railway yards in North Red Deer, to their work about one mile down the river. They hope to be able to start work shortly and continue it all winter.

During the last few days the district has been visited by one of the old-time winter waves, which make us all forget the cold. The change is helpful to the farmers, as it allows

of threatening going on and is very acceptable to the cowpards on account of the shortage of coal.

The C.N. Railway have steel laid to within three miles of Riverton Lake and are forming a depot of stores there, and will freight from the lake west.

One hundred and fifty men arrived here this week and were taken to the Rocky Mountain House in teams, to work in the rock cuts on the C.N.T. west of this point.

It is understood that the A.C. Railway will start construction east of Red Deer as soon as the spring opens and in addition will rush on the laying of steel west to the branch. Chief Engineer McGregor is at present in Ottawa in the interest of the road.

Messrs. Greer, Williams and Hain returned on Friday from the woods north of Bentleyville, where they have spent two weeks hunting. They were successful in getting a large deer.

Mr. R. P. Graham left Thursday to take up a course of study in the Wildlife College, Toronto, in preparation to entering the Anglican priesthood.

Mr. H. H. Humber has moved his jewellery business into his handsome new premises at the corner of the river, which is a great credit to the town.

Mr. W. A. Moore has received a beautiful "Ford" automobile and is taking great pleasure with it these few days.

Mr. A. B. Cunningham, of Kingston, Ontario, solicitor for the Saskatchewan Land and Homestead Commission, is here this week visiting his brother, J. E. Cunningham.

Mr. Munton, of Manitoba, spent Wednesday of this week in town.

Mr. J. Sullivan and family have moved to town and occupy the house lately vacated by Mr. Danton. Mr. Sullivan has quite a large ranch a few miles north of Vermilion, but doubts their safety in town before the snow gets to deep.

Mr. Danton and family have moved to their new home on Front street. Clifford Truett, who has been living out in the country, is now employed in the Alberta Western Lumber company's office through the winter holidays.

Frank Doyle has secured a position in the post office for the winter months. Many will be glad to hear that W. Armstrong, who had his leg broken some time ago, while wrestling, is improving nicely and hopes to be around again in a few weeks.

The lively barn of Armstrong and Walker had a narrow escape from being burned down on Tuesday night. A fire, which had been left burning, exploded. Constable Oakley happened to be passing and fortunately extinguished the flames; otherwise there would have been a serious loss.

The opening of the rink has been postponed to Monday evening. The rink, which had been left burning, exploded. Constable Oakley happened to be passing and fortunately extinguished the flames; otherwise there would have been a serious loss.

A union temperance meeting will be held this evening in the Methodist
